Hal--

25X1A

25X1A Woodruff and Preston asked for the annual summary of figures. They are attached. [REDACTED] and Co. have provided these in the past. I told Woodruff we'd do likewise.

The numbers conform with NOA as included in the President's budget. Please have someone review them, make copies as you wish, and be certain your program people know they are being provided per the Congressional request.

I'd like to forward these ASAP but not without your blessing.

John/ We check. Here's to a single set
of numbers for the whole course!
